

คำศัพท์ รายวิชา ว 22101 , ว 22205 วิทยาศาสตร์ระดับชั้นมัธยมศึกษาปีที่ 2

หน่วยการเรียนรู้ที่ 3 ระบบต่าง ๆ ของสัตว์

- |                         |                         |                          |                             |
|-------------------------|-------------------------|--------------------------|-----------------------------|
| 1. Digestive System     | 2. Hydra                | 3. Gastrovascular cavity | 4. Complete digestion       |
| 5. Incomplete digestion | 6. nematocyst           | 7. arthropoda            | 8. crop                     |
| 9. Gizzard              | 10. Gill capillaries    | 11. hemolymph            | 12. ostia                   |
| 13. Gill                | 14. Trachea system      | 15. spiracle             | 16. trachea                 |
| 17. tracheole           | 18. Air sac             | 19. Malpighian tubule    | 20. Innate behavior         |
| 21. kinesis             | 22. taxis               | 23. reflex               | 24. Chain of reflexes       |
| 25. Learning behavior   | 26. habituation         | 27. conditioning         | 28. imprinting              |
| 29. Trial and error     | 30. Sexual reproduction | 31. Asexual reproduction | 32. Binary fission          |
| 33. budding             | 34. Bud                 | 35. Tentacle             | 36. regeneration            |
| 37. Sporulation         | 38. fragmentation       | 39. Parthenogenesis      | 40. fertilization           |
| 41. ametamorphosis      | 42. metamorphosis       | 43. naiad                | 44. Artificial insemination |
| 45. Embryo transfer     | 46. Cloning             | 47. Genetic engineering  | 48. respiration             |
| 49. Kidney              | 50. Flame cell          | 51. nephridium           | 52. sperm                   |
| 53. Egg                 | 54. Zygote              | 55. Embryo               |                             |
